Invitation

Dear Colleagues

We are pleased to inform you that Department of Veterinary Anatomy, College of Veterinary Science and Animal Husbandry, NDVSU, Jabalpur is organizing the XXXIX Annual Convention of India Association of Veterinary Anatomists (IAVA) and National Symposium on **“Advances in Veterinary Anatomy : Bridging Tradition and Innovation to Mitigate Global Challenges in Holistic Development of Animal Health and Production”** from 29th to 31st October 2025.

Veterinary Anatomy is a cornerstone of clinical veterinary practice, enabling veterinarians to diagnose, treat, and care for animals effectively. This convention is intended to be a gathering, where boundaries dissolve and the pursuit of knowledge takes center stage. Where questions lead to discoveries, and discoveries ignite progress. It will provide a platform to recognize the challenges ahead and explore the potential within each of us to address them. Organizing committee feels privileged to invite the scientists, researchers, professionals and entrepreneurs to foster connections that transcend disciplines, initiate conversations to reshape paradigms and inspire solutions that make a lasting impact on holistic sustainable development of animal health and production.

About University and College

The Nanaji Deshmukh Veterinary Science University Jabalpur was established on 3rd November, 2009. The university has three constituent Veterinary Colleges located at Jabalpur, Mhow, Rewa, Fishery College, Animal Biotechnology Center and School of Wild Life Forensic and Health at Jabalpur. Government and Private Veterinary polytechnic colleges are also affiliated with the University.

College of Veterinary Science and Animal Husbandry was established on 8th July, 1948 under the Central Province and Berar. The college possesses 17 departments and two livestock farms. It has vast wisdom and legacy in terms of alumni in administrative service officers, IAS, IPS, IRS, IFS, RVC officers, Scientists etc. The founder president of IAVA, Dr. A.M. Shrivastava was also the alumni of this college. College campus is a vast land area of about 27 acres at the prestigious location of Jabalpur. It is one of the premier institutes for Veterinary Science education in central India.

About Department

The Department of Veterinary Anatomy was established in 1948, with the foundation of College of Veterinary Science and Animal Husbandry. The department is offering M.V.Sc. in Veterinary Anatomy from 1964 and Ph.D. from 2008 and conducted research on gross, histological and histochemical aspects of different systems of domestic, wild and laboratory animals. Research findings were published in national and international reputed journals. The Department has a well established museum with skeletons, wet and dry specimens of domestic and wild animals and birds. Two extramural research projects of the department are “Establishment of Laboratory for Embalming of Ethically sourced Animals and Museum up Gradation” (budget 107.53 lakh) funded by MANDI, board Bhopal and “Anatomical and Radiographic study on Freshwater Turtles of M.P. regions” (Budget 10.30 lakh) funded by Principal Chief Conservator of Forest, Madhya Pradesh (CAMPA), Bhopal. The department has organized an annual convention of IAVA and National symposium in 2006. Department is organizing regular skill based training for students of science stream. Faculty of the department has received many prestigious national and international awards.

Venue and Location

Jabalpur city named after its founder Rishi ‘Jabali’ and given the title of ‘Sanskardhani’ by Acharya Vinobha Bhave. The city is situated near the holy river Narmada. The awesome Bhedaghat (marble rocks), spectacular Dhuandhar and historical Madan Mahal attract tourists to the city. The host institute, College of Veterinary Science and Animal Husbandry is located half kilometer away from the main railway station and 12 km from the airport. Weather remains pleasant during October month. Jabalpur is surrounded by famous National Park and Tiger Reserve, Kanha (125km), Pench (160km) and Bhandhavgarh (170km).
